

# T.B.SILENCE

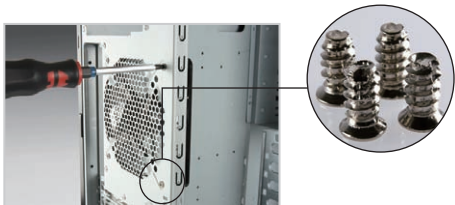

-PWM Series

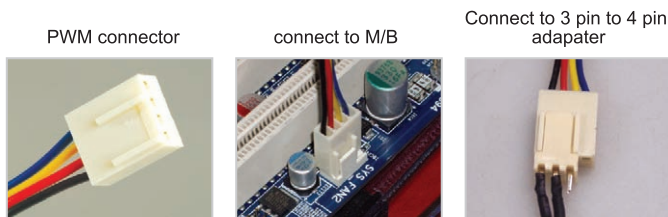

■ **The package includes :** ○ T.B.SILENCE-PWM Series Fan\*1    ○ Screws \* 4    ○ 3 pin to 4 pin adaptor \* 1

## ■ Installation:

1. PC power off at all times during installation
2. Please see the right figure for the airflow directions
3. Install the fan on the case with the 4 screws

4. Connect the PWM 4 pin connector to a specific PWM or 3 pin 12V header on the motherboard. Or use the enclosed 3 pin to 4 pin adaptor to connect it to a 4 pin Molex from power supply. ( PWM-control requires a PWM-enabled motherboard and connection so that you can adjust fan speed via BIOS-motherboard. )

## ■ Detaching fan blades:

Carefully push out the fan blades with your thumbs in the inner area

## ■ Reattaching the fan blades:

Press the center of the blades towards the frame until it clicks
